

Accident Insurance

can pay you money for covered accidental injuries and their treatment.

How does it work?

Accident Insurance can pay a set benefit amount based on the type of injury you have and the type of treatment you need. It covers accidents that occur off the job. And it includes a range of incidents, from common injuries to more serious events.

What's included?

Wellness Benefit

Every year, each family member who has Accident coverage can also receive \$50 for getting a health screening test, such as:

- Blood tests
- Chest X-rays
- Stress tests
- Colonoscopies
- Mammograms

Why is this coverage so valuable?

- It can help you with out-of-pocket costs that your medical plan doesn't cover, like co-pays and deductibles.
- You're guaranteed base coverage, without answering health questions.
- The cost is conveniently deducted from your paycheck.
- You can keep your coverage if you change jobs or retire. You'll be billed directly.

Who can get coverage?

You	If you're actively at work*	
Your spouse	Ages 17 to 64	
Your children	Dependent children from birth until their 26th birthday, regardless of marital or student status.	

How much does it cost?

Monthly Premium		
You	\$14.57	
You and your spouse	\$24.16	
You and your child(ren)	\$28.02	
You, your spouse and child(ren)	\$37.61	

For illustrative purposes only. Actual cost may vary.

*Employees must be legally authorized to work in the United States and actively working at a U.S. location to receive coverage. Spouses and dependent children must reside in the United States to receive coverage.
